

Packaging and Labelling for Life Science Products

Lesson 0: Course Outline

Introduction

Hello and welcome to this course on Packaging and Labelling for Life Science Products. The aim of this course is to equip the learner with the skills and competencies to understand a range of packaging and labelling tasks used whilst working in the life sciences manufacturing sector.

This course provides the learner with an insight into the purpose and types of packaging and labels. It looks at the regulations that apply to packaging and labelling and examines how packaging operations work.

On completion of this training course, you will be able to:

- Understand the purpose of packaging, the regulations governing packaging and how it prevents product contamination.
- Understand the different classes of packaging, the types of materials used, and the different types of packaging equipment.
- Understand the purpose and types of labelling and printing used with product and packaging.
- Appreciate the regulatory controls that apply to labels.
- Understand the types of documentation associated with packaging and production processes.
- Appreciate how a range of packaging and labelling tasks are carried out in compliance with guidelines and procedures.

Who is this course for?

This course is ideal for those that are new to the life science manufacturing sector and who want to learn about packaging and labelling operations.

This course is also beneficial to those working in life sciences but looking to expand their knowledge into manufacturing operations.

The course is divided into 8 lessons:

Lesson 1: Introduction to Packaging

Lesson 2: Forms of Packaging

Lesson 3: Regulations governing Packaging

Lesson 4: Drug Delivery Systems

Lesson 5: Contamination Prevention in Packaging

Lesson 6: Labelling Operations

Lesson 7: Regulatory Controls on Labels

Lesson 8: Packaging Documentation

How to navigate the course

If this is your first course with People & Process Academy, be sure to look at “Studying with People & Process” before you begin. This short video shows you how to find your way around the lessons and modules.

People & Process Academy

Lessons are all presented in video format, and there's a transcript you can follow as you watch. If you like, you can download the video transcript to revise later on. In this course, each new lesson builds on previous information, so it's best to follow the lessons in order. Similarly, you should follow each module in sequence as you first go through the course. All registered users have unlimited access to video lessons and transcripts, and you can repeat each video as often as you like.

There's a discussion forum attached to this course. You'll find the discussion forum on the course homepage. In this forum you can chat to other students and leave questions and comments on the course.

If you have any difficulties navigating the course, see the support section for help.

The Assessment Method

There's a quiz at the end of each lesson to test your understanding of the material. To successfully complete this course, you must pass the quiz for each lesson. Once all the lessons have been completed, you can then download and print the People & Process completion certificate.

So let's get started! In the next video, we'll provide an Introduction to Packaging.
